Features of COPD patients by comparing CAT with mMRC: a retrospective, cross-sectional study

Wei-Chang Huang, Ming-Feng Wu, Hui-Chen Chen, Jeng-Yuan Hsu & The TOLD study group

npj Primary Care Respiratory Medicine 25, Article number: 15063 (2015) | Download Citation

- Do *we* appreciate the limitations of objective, clinical lung function measurements?
- Should we encourage discussions about breathlessness as a subjective, lived experience in clinic? If so how?
