**ICS criteria**

Effective leadership and relationships, capacity & capability	Strong leadership, with mature relationships including with local government.
	Effective collective decision-making that does not rely solely on consensus.
	Effective ways of involving clinicians and staff, service users/public and community partners (including VCSE/IS).
	Ability to carry out decisions that are made, with the capability to execute on priorities.
	Track record of delivery
	Tangible progress towards delivering the Five Year Forward View priorities (redesigned UEC services, better access to primary care, improved mental health and cancer services)
	Progress in improving performance (relative to rest of country) against NHS Constitution standards (or sustaining performance where those standards are being met).
	Strong Financial Management
	Strong financial management, with a collective commitment from CCG's and trusts to system planning and shared financial risk management, supported by system control and system operating plan.
	Focused on Care Redesign
	Compelling plans to integrate primary care, mental health, social care and hospital services, and collaborate horizontally (between hospitals)
	Starting to use population health approaches to redesign care around people at risk of becoming acutely unwell.
Starting to develop primary care networks.	
Coherent and defined population	
A meaningful geographic footprint that respects patients flows.	
Contiguous with local authority boundaries or - where not practical - clear arrangements for working across local authority boundaries.	
Covers one or more existing STP's, with a population of ~1m or more.
