

Let's talk...
Menopause

What does support look like for health and care employees in Bristol, North Somerset and South Gloucestershire?

Join the conversation at our

Virtual conference

19th October

2.00-4.00pm

This conference is hosted by 'Healthier Together' the partnership of health and care organisations in Bristol, North Somerset and South Gloucestershire (BNSSG). It is open to ALL employees.

It's everyone's issue

Time for change

As health and care professionals, we want to set the standard in providing empathetic support for employees experiencing the menopause – a time of transition that's still poorly understood. Can you help drive this change?

A virtual conference

The conference aims are to: build awareness of the issues; enlist new advocates (not just the usual suspects); help people make connections; and explore what support could look like for our health and care system.

Keynote speaker:

Carolyn Harris, MP

We are delighted to be joined by **Carolyn Harris, MP for Swansea East**, who is currently steering the Menopause (Support and Services) Bill through Parliament.

We will also be joined by representatives from:

Fawcett Society • Peppy • Newsome Health Menopause • Bristol Menopause
