

Access to Connecting Care

We are working closely with the project leads from each partner organisation to roll out Connecting Care to new teams and providing training and support to people who are new to the system.

There are plenty of licences available to all the organisations with no additional costs associated.

If you or any of your colleagues/teams would benefit from using Connecting Care please let your local project lead know.

Connecting Care Project Leads

Each of the Connecting Care partners has a local project lead to support the roll out and development of Connecting Care. They are the people to contact if you or a colleague would like a licence or you have any questions relating to the use of Connecting Care and your organisation.
