Subject: Section 117 Aftercare Funding Arrangements Within ICBs

*I can confirm that the ICB **does hold some of the information requested**; please see responses below:*

QUESTION	RESPONSE
<p>I am making a FOI request to enquire around the standard 117 aftercare funding arrangements within different ICBs (e.g. CCG/LA split %) and the rationale for this (e.g. attaching the joint agreement if available or LA/Health rep provide a summary). If the 117 funding contribution does vary for each case – how is the 117 aftercare funding split determined? Is there a tool/matrix that is used?</p> <p>Alternatively, if the requested information is publicly available; if you could send the direct link to access this information, it would be greatly appreciated.</p>	<p>In North Somerset and Bristol there is a standard funding split of 70% Local Authority funding to 30% Integrated Care Board funding for S117 aftercare. The rationale for this is that the funding formula reflects the typical balance of health and social care needs for individuals within this cohort.</p> <p>In South Gloucestershire, the funding split for S117 Aftercare is determined on a case-by-case basis. The funding split is decided at a monthly joint funding panel and is dependent on the balance of health and social care needs for each individual.</p>

The information provided in this response is accurate as of 20 September 2022 and has been approved for release by Rosi Shepherd, Chief Nursing Officer for NHS Bristol, North Somerset and South Gloucestershire ICB.
