Subject: Women's Health Hubs

I can confirm that the ICB does hold some of the information requested; please see responses below:

QUESTION	RESPONSE
<p>1. What is the name of the accountable lead for developing Women's Health Hubs (WHHs) in your Integrated Care System (ICS)?</p> <ul style="list-style-type: none"> This will be the primary contact for NHS England national and/or regional team to engage with when discussing progress against key WHH milestones. The accountable lead is the person responsible for the overall delivery of the WHH in your ICS. This may be the Women's Health champion or another senior leader 	Dr Joanne Medhurst – ICB Chief Medical Officer
2. What is the email address of the accountable lead?	All enquiries can be sent to bnssg.customerservice@nhs.net
3. How many WHHs are being developed or expanded in your ICS using DHSC's £25 million transformation fund?	We are not launching standalone, separate 'hubs'. Instead, we are working with groups of local general practices called Primary Care Networks to bolster and improve their women's health services. In some areas, this will involve setting up a 'hub' clinic between practices for some women's health services, such the provision of coils and implants.

	We intend to work with all 20 Primary Care Networks in Bristol, North Somerset and South Gloucestershire.
4. Are you on track to have at least one operational WHH in your ICS providing at least 2 core services (as outlined in the WHH core specification) by end of July 2024?	Yes.

The information provided in this response is accurate as of 18 July 2024 and has been approved for release by Dr Joanne Medhurst, Chief Medical Officer for NHS Bristol, North Somerset and South Gloucestershire ICB.
