

Reference: FOI.ICB-2526/153

Subject: Guidance on Prams at GP Practices

I can confirm that the ICB does not hold the information requested; please see responses below:

QUESTION	RESPONSE
<p>As you may be aware some of the GP practices within your area require, ask or advise patients to leave prams for children outside of their premises.</p> <ol style="list-style-type: none"> 1. Do you have any information/guidance/copies of minutes/risk assessments/policies/other that cover this topic as your role as the ICB that may have been provided to GP practices? 2. Can you provide any other information on this topic so we can understand the reasoning behind these rules/requests and what if any risk assessments have been undertaken? 	<p>The ICB is not aware of any local or national guidance relating to prams at GP Practices.</p> <p>Each GP practice will undertake its own risk assessments to ensure compliance with statutory legislation e.g. Health & Safety, Fire, Equality Act etc. and would be considered at an individual practice level, and is not information collated by the ICB.</p>

The information provided in this response is accurate as of 20 August 2025 and has been approved for release by David Jarrett, Chief Delivery Officer for NHS Bristol, North Somerset and South Gloucestershire ICB.
