

**Reference:** FOI.ICB-2526/210

**Subject:** FeNO and Spirometry Services

*I can confirm that the ICB does hold some of the information requested; please see responses below:*

QUESTION	RESPONSE
1. Could you please provide a list of FeNO providers within the ICB, along with the areas they cover.	The ICB does not hold information on FeNO providers in BNSSG.
2. Could you please provide a list of the Spirometry providers within the ICB, along with the areas they cover.	Please find enclosed list of Spirometry providers and the areas they cover in BNSSG.
3. Could you please clarify if the service is commissioned to provide FeNO and Spirometry together, or if providers are able to deliver either service independently, depending on the referral.	<p>The service is not commissioned to provide FeNO and Spirometry together.</p> <p>The service provides spirometry testing to confirm diagnosis of COPD or Asthma by completing a reversibility test and signpost patients to appropriate support services when diagnosed.</p> <p>The service specification acknowledges that Asthma can also be diagnosed by other alternative tests to spirometry. Practices therefore have the choice of utilising alternative devices like the FeNo machine that can also provide the full range of measurement.</p>

4. Could you please provide the name (s), email address (es) and telephone numbers of the person (s) who are responsible for the commissioning of these services.

The service is commissioned by the Bristol, North Somerset and South Gloucestershire ICB. The contracts team can be contacted via email at [bnssg.pc.contracts@nhs.net](mailto:bnssg.pc.contracts@nhs.net)

***The information provided in this response is accurate as of 20 October 2025 and has been approved for release by David Jarrett, Chief Delivery Officer for NHS Bristol, North Somerset and South Gloucestershire ICB.***
