

Reference: FOI.ICB-2627/091

Subject: Respiratory Service Plans

I can confirm that the ICB does hold some of the information requested; please see responses below:

QUESTION	RESPONSE
1. Your ICB's current and future plans or strategies relating to: a. Asthma services b. COPD services c. Spirometry diagnostics d. Sleep services	BNSSG ICB does not have separate plans or strategies relating to the specified services. BNSSG overarching strategy and commitments can be found here Our Strategy - BNSSG Healthier Together and here Healthier Together 2040 - BNSSG Healthier Together Further information can be found from our service providers, including in the Group Clinical Strategy Update 2026 available here https://www.nbt.nhs.uk/sites/default/files/document/Group%20Clinical%20Strategy%20Update%202026%20FINAL%20-%20March%202026_0.pdf
2. Any planned transformation, expansion, procurement, community diagnostic centre (CDC), or pathway redesign initiatives relating to these services over the next 12–24 months.	There are currently no plans for the transformation, expansion, procurement, or any community diagnostic centre changes relating to these services for the adult population. The ICB and system partners are currently reviewing asthma diagnostic provision for children and young people. There are two CDCs in the BNSSG footprint, as follows:

	- North Bristol CDC (BS34 5TL) contract is held by NBT (North Bristol NHS Trust) and delivered by InHealth. For Information related to this CDC, please contact: FOIArequests@nbt.nhs.uk - Weston CDC (BS23 3RX) contract is held by UHBW (University Hospitals Bristol and Weston NHS Foundation Trust) and delivered by InHealth. For information related to this CDC, please contact: FreedomOfInfo@uhbw.nhs.uk
3. The names, job titles, and contact details (where permissible) of the current clinical, operational, innovation and digital transformation leads responsible for respiratory services and delivery of these initiatives within your ICB.	There is not a named ICB lead specifically responsible for respiratory services. Respiratory services are delivered by a number of providers and currently the performance and delivery oversight is held by the performance and/or contracting teams facing the specific provider. If you wish to contact these departments within the ICB, please use the following contact details, stating which department you require: bnssg.customerservice@nhs.net Tel: 0117 900 2655 or 0800 073 0907 (freephone) BNSSG ICB is currently undergoing organisational change, so are unable to confirm where responsibilities might lie in the future.
4. Details of any priority objectives, targets, or programmes linked to respiratory health improvement and diagnostics.	Respiratory physiology - sleep studies is included in the DM01 modalities against which the constitution standard of referral to test within 6 weeks applies – we work to this standard target.

The information provided in this response is accurate as of 30 June 2026 and has been approved for release by Caroline Dawe, Deputy Director of Performance and Delivery, Acute and Integrated Care, MHLDA and EPRR for NHS Bristol, North Somerset and South Gloucestershire ICB.
