Subject: Remote CHC Assessments

I can confirm that the ICB does hold some of the information requested; please see responses below:

QUESTION	RESPONSE
Please may you provide me with the number of NHS CHC assessments carried out remotely via video conferencing by the ICB per year. I would like this data alongside the overall total number of NHS CHC assessments carried out by the ICB (whether remotely or in person). I would like the data broken down for the most recent five years, with a year-end date of 5 April. If this cannot be provided I would like the annual data for the last three years or, failing that, the most recent two years,	BNSSG ICB does not record if the assessment is face to face or completed remotely. However the ICB approach is to complete all assessments face to face unless specifically requested otherwise by the patient/family.

The information provided in this response is accurate as of 1 July 2026 and has been approved for release by Denise Moorhouse, Deputy Chief Nurse for NHS Bristol, North Somerset and South Gloucestershire ICB.
